

I have been watching Sinclair's programming and I feel the station is trying to brainwash, rather than inform or educate me. Sinclair should not be allowed to use the public airways, and its license should not be renewed. The recent incident with "Stolen Honor" is crossing the line, but there are many other instances of manipulation and one-sidedness. The FCC would be failing its mission if it were to ignore the warnings and protests of viewers like me.

Sincerely,
